The pump industry is an enormous industry and plays a critical role in almost every facet of our lives. Water supply, fire protection, oil & gas, power plants, waste water treatment, sump pumps at homes, processing chemicals, foods & pharmaceuticals, and many more. This site is part of the **Pump related portal of sites.**

These provides users with quality useful information about the pump industry. Not only does it list the news of various aspects of the pump industry in various industries like oil and gas, green technologies and products & services like cump casings, seals, impellers, castings, motors, engines, etc. It also list news related to mergers & acquisitions, people, awardstraining, recruiting and also events. If fact we have a website dedicated to pump events, pumpevents.com focused on pump related events.
